BOLD DISPLAYS THAT STAND OUT

GFIOP140/212 is an outdoor durable poster paper with the perfect combination of durability, performance, and economy. The latex saturated base paper creates a strong foundation for a range of indoor and outdoor applications. **GFIOP** features a satin, receptive coating designed for solvent, UV cure and latex inkjet that promotes ink adhesion and resists scratching. The result is an award-winning paper that meets the demanding print, application and durability requirements for high volume, high production graphics.

GFIOP is available in both 6 mil (GFIOP140) and 9 mil (GFIOP212).

How can you print GFIOP?

GFIOP is best printed with latex printers, solvent, and UV printers.

**For best results:
Use High Pass Count**
